11. Make sure your church has counseling available for those who need help – either with an on-site counseling or a referral relationship with a local counseling center.

16. Pray for those involved in producing pornography.
17. Make sure missionaries serving in the field from your church have Internet filter protection.
18. Create an environment in your church that will encourage people to come forward for help when they are struggling with this problem. Be a church that responds with grace, not condemnation; with mercy, not judgment.
19. Become a "Somebody's Daughter" church by keeping this issue in front of the congregation on a regular basis. Keep the 'Things You Can Do' list up in places where people can see it and be reminded to act.
